

LGBT

Workplace

Symposium

Chennai

EXPANDING THE DIALOGUE IN INDIA: **19TH OF MAY 2017**

The **LGBT Workplace Symposium in Chennai** will bring together organizations representing employers, employees and civil society to address the specific challenges of being LGBT in the Indian workplace. It will develop a shared understanding of the local challenges, as well as strategies and tactics to address these challenges. Perhaps most importantly, it will establish a network of support that lasts well beyond the event and be an agent for on-going change and improvement.

Previous work in India has laid the groundwork for the symposium by raising awareness of LGBT issues. Here we will take this good work forward by creating practical and sustainable initiatives that have an immediate effect on employers, employees and the business-political establishment as a whole.
